

The Rainforest

Choa Chu Kang, Singapore | 2014

The Rainforest's four residential blocks are set upon a lush 190,000sq.ft. recreational environment incorporating an extensive walking trail, cavern spa, lagoon, 50m lap pool, leisure alcoves, tennis courts, children's playground, as well as a centerpiece club house with an elevated gymnasium, function room, and outdoor lounge.

Located in western Singapore, Choa Chu Kang was a village and farming area in the old times but has been rapidly developed, under the Housing and Development Board (HDB), into one of the most advanced suburban areas in Singapore.
